### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Lake on February 23, 2004.

The application has been amended as follows:

Claim 30, line 1, replace "produc d" with "produced".

Claim 36, line 1, replace "wh rein" with "wherein".

Claim 36, line 1, replace "th" with "the".

The following is an examiner's statement of reasons for allowance:

Claims 28, 29, 31-37, 39-42, 44 and 45 are allowable over the prior art of record because the prior art of record does not teach a sputter component having a material having a sufficient amount of residual stress to increase magnetic pass through flux exhibited by the component during PVD compared to pass through flux exhibited without inducing residual stress.

Claims 30 and 43 are allowable over the prior art of record because the prior art of record does not teach producing the sputter target by unidirectional first cold rolling as claimed, heat treating as claimed and second cold rolling as claimed so that at least 70% of a surface area at least within selected boundaries of a surface of the target bank exhibit a (200) texture.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
